

DECORATION RHYMES WITH ECO-DESIGN FOR THE STILL AND SPARKLING WINES MARKETS

FEATURES

Cleaning, drying before finishing and labelling

Cleanliness and finishing: a guarantee of quality for your wines

A machine built to meet the constraints of wine packaging, suitable for filled, corked and capped bottles coming out of the cellar. Units ensure that the bottles are clean and dry at the entrance and exit of the finishing process, in order to guarantee the quality of the finish.

Modular quick-set tools

Format change flexibility: a priority for your productions

Take advantage of the maximum range of volumes, from 20cl to 1.5l, and the freedom of glass shapes, which represent your terroir and the maturation of your wines: Bordeaux, Bourgogne, Alsace, Champagne, ...

Modular applicator head and shrink tunnel

We have made modularity the secret of your performance

This compact, all stainless steel monobloc machine can be enhanced with different modules to meet your productivity needs, from 4,000 to 12,000 bottles/hour..

A steam shrinking tunnel with controlled energy

We strive for carbon neutrality with an eco-responsible offer

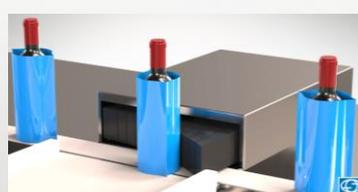

This machine has a unique and patented technology, equipped with a lifting and lowering system. Its shrinkage chamber can be adapted to every format. We recycle part of our energy and minimize consumption.

OPTIONS

Camera orientation module

Control and ejection system

A drying module with reduced energy consumption

Mobile tool trolley for the proximity and security of your tools

SPECIFICATIONS

Non contractual Informations

Machine

Conveyor height	980 mm +/- 50mm
Speed	From 50 to 200 bpm
Cutting diameter	From 30 to 100 mm
Steam consumption	From 80 to 300 Kg/h
Steam pressure	6 to 8 bars
Electrical consumption	9 kW/h

Packaging

Materials	Glass
Shapes	Champagne, Bordeaux, Bourgogne, complex shapes
Sizes	From 20cl to 1.5L
Products diameter	From 45 to 98mm
Products height	From 188 to 371 mm

Sleeves

Applications	Finishing, full body
Type of films	PET, RPET,...
Films thickness	From 40 to 90 microns
Finishing	Neutral, printed, special effects...
Applications	Finishing, full body
